Judicial Lawmaking at the WTO: Discursive, Constitutional, and Political
Constraints
Richard H. Steinberg
247

Judicial lawmaking in the WTO is marked by elastic interpretive discourse and constitutional rules that do not serve as a meaningful restraint. Politics, however, constrains both discursive and constitutional latitude, which should alleviate concerns that WTO judicial lawmaking is so expansive as to undermine the sovereignty of powerful states, create a serious democratic deficit for their citizens, or catalyze withdrawal of their support for the organization.

Common but Differentiated Responsibilities in International Law
Christopher D. Stone
276

Multinational agreements are increasingly adopting "common but differentiated responsibilities" that impose obligations more heavily on some nations—typically the Rich—than on others—most often the Poor. While the notion of a "differential" obligation remains ill-defined, there are many reasons for negotiators to offer heterogeneous terms as a way of attracting heterogeneous parties. The author explores the circumstances under which various sorts of differentiation are desirable.

### Article

**DEFENDING IMMINENCE: FROM BATTERED WOMEN TO IRAQ**.............................*Kimberly Kessler Ferzan* 213

America’s war against Iraq, and battered women who kill their sleeping abusers, both present challenges to the imminence requirement in self-defense. In both cases, the actors claim the imminence requirement is too restrictive because to be successful, the defender may need to act prior to the threat becoming “imminent.” Many criminal law scholars are willing to jettison imminence, reasoning that the imminence requirement’s *raison d’etre* is to establish the necessity of defensive force and thus imminence should not trump necessity.

This Article maintains the imminence requirement is more than simply a proxy for necessity: imminence has independent substantive significance. By modifying the type of threats sufficient to trigger defensive force, imminence effectively serves as an *actus reus* for aggression. Without the imminence requirement, inchoate and contingent threats could justify self-defensive action, thereby eliding the distinction between self-defense and self-preference and abrogating the distinction between defense and offense.

Five Hot Topics: Issues of Pending Concern in Pennsylvania's Appellate Courts
Bruce A. Anthowiaik ........................................... 411

In June, 2003 the author was honored to be asked to address the conference of the Superior Court of Pennsylvania on a variety of topics which have percolated to the surface of Pennsylvania appellate practice in recent years. In response to the court's invitation, brief abstracts of five topics were created to suggest an analytical framework for future research in each of the five respective areas. These abstracts have been updated and revised for this publication. The five topics discussed are diverse in subject matter and each is the subject of considerable ongoing litigation.

Equal Protection Under the Pennsylvania Constitution
Russell Gerney ........................................... 455

The article begins by examining the sources of equal protection law in both federal and the state constitutions cited by the Pennsylvania Supreme Court. Next the author sets out a decade by decade examination of leading cases in the area of equal protection under the Pennsylvania Constitution. Finally, the author considers the current state of equal protection analysis under the Pennsylvania Constitution.
THE ODDITY AND ODYSSEY OF “PREumed DAMAGES” IN DEFAMATION
ACTIONS UNDER PENNSYLVANIA LAW
Kevin P. Allen ................................................................. 495

In the 1947 case of Gertz v. Robert Welsch, Inc., the
United States Supreme Court decided that, at least
in certain circumstances, the concept of presumed
damages could no longer co-exist with First
Amendment freedom of speech rights. The author
observes that, nearly thirty years later,
Pennsylvania's treatment of “presumed damages”
in defamation actions remains unsettled. The
article traces the journey of presumed damages in
Pennsylvania from a nineteenth century statute,
through the early twentieth century, when
presumed damages were available whenever a
plaintiff could prove the publication of a libelous
or slanderous per se statement, to the 1960's and
1970's, when the United States Supreme Court in
Gertz limited the application of presumed damages,
through today, where the continued availability of
presumed damages is in serious doubt under
Pennsylvania law.
